

A message from Sutton on Sea Horticultural Society

Hi, I am Alan Taylor,

I am Chair of the Sutton -on - Sea Horticultural Society.

We, as a society hold two Coffee and Cutting sales each year to raise money to fund the annual show. The show is a community event where everyone is encouraged to participate. Your grant, in the past helped us purchase a marquee and equipment to help us to develop the show. The latest grant will help us to do our part in sanitising all our equipment and keeping the folk of Sutton safe.

A message from CLIP

We run a learning programme for 16-19 year olds. They can study for GCSEs or Functional skills in maths and English. They also engage in employability courses and personal development. Our young people usually end their programme with a raft of skills and qualifications that set them up for the next step, whether it be further education or employment.

We also offer courses to the wider community. We offer a range of courses from English and maths, first aid, food hygiene right through to gardening and well-being. We have an eye on local industry and endeavour to run courses that meet the needs of local employers so that our students are work ready if that is their goal.

The cafe has been a huge benefit to our organisation as it offers a welcoming and safe environment for people to come enjoy and progress.

A lot of our young people come from disadvantaged back grounds and a healthy meal each day is important. Thanks to organisations such as yours we are now able to deliver this. Thank you again

A message from St Clements Art Group

Hi, I am Alan Taylor,

I am Chair of the St Clements Art Group in Sutton - on Sea.

We are a thriving art group with approximately 30 members, we are more than an art group it is a social gathering. Many members live alone and enjoy the company of like-minded people once a week. We hold an annual show in our community centre and try to arrange an outing once a year. Your grant will help us buy sanitising goods to help get meeting in the very near future.

Alan Taylor

Chair of St Clements Art Group
